

## Group Process Evaluation

	<b>Excellent</b>	<b>Good</b>	<b>Fair</b>	<b>Poor</b>
<b>Cooperation</b>	We worked well together. Everyone contributed ideas. We respected each others' opinions.	We worked pretty well together. Everyone contributed ideas, but some did more work than others. We got along with just a few disagreements.	We worked together, but ran into some problems. We had a hard time agreeing and getting along. Not everyone contributed to the work.	We didn't work together well at all. We disagreed and had fights. Some people felt their opinions were not respected. One person did almost all of the work.
<b>Thoughtful Completion</b>	We completed all of our work thoughtfully. We discussed the information and debated the right things to write down.	We completed most of our work thoughtfully, and tried to think about how to share what we had learned.	We focused mainly on getting the work done, and not on how well we were doing it. We were more concerned with how our exhibit looked than on what it said.	We just wrote down anything we could. We rushed through the work, and didn't finish.
<b>Focused Work</b>	We stayed focused on our work and didn't wander around the room or get distracted by other groups.	We tried to stay focused, with only a few breaks from our work.	We got distracted, and had to rush through our work to finish in time.	We didn't finish our work. Members of our group wandered the room and were distracted and distracting.

**We are proud of...**

**One thing we wish we would have done differently is...**
